## RESOURCE MATERIALS

### Books and Journals

- Carroll K, et al: Influences on decision making identified by parents of children receiving pediatric palliative care, *Am J Bioethics* 3(1), January–March 2012.
- Carter B, Hubble C, Weise K: Palliative medicine in neonatal and pediatric intensive care, *Child Adolesc Psychiatr Clin North Am* 15:759–777, 2006. A complete outline of the issues involved in implementing palliative care for infants and children in an intensive care setting. It also describes select programs that have a palliative care service in intensive care.
- Carter B, Levetown M, Freibert S: *Palliative care for infants, children, and adolescents: a practical handbook*, ed 2, Baltimore, Md, 2011, Johns Hopkins University Press. Excellent chapter on decision making in the pediatric setting.
- Committee on Fetus and Newborn: Noninitiation or withdrawal of intensive care for high-risk newborns, *Pediatrics* 119:401, 2007.
- Gale G, Brooks A: A parent's guide to palliative care, *Adv Neonatal Care* 6(1):54, 2006. Directed to parents, this article describes what palliative care is, who it may benefit, and where and how long it may be provided for babies.
- Johnson A, Siegler M, Winslade WJ: *Clinical ethics: a practical approach to ethical decisions in clinical medicine*, ed 5, New York, 2002, McGraw-Hill.
- Leuthner S, Jones EL: Fetal concerns program: a model for perinatal palliative care, *MCN Am J Matern Child Nurs* 32(5):272, 2007.
- National Association of Neonatal Nurses: NAAN position statement: palliative care for neonates and infants #3051, *Adv Neonatal Care* 10:6, 2012.
- Neonatal Netw* 27(6), 2008. This entire issue addresses the needs of infants on the margin of viability, 23 to 27 weeks of gestation.
