CONTENTS BY SUBJECT AREA

ANIMAL STUDIES AND MODELS
Animal Models (Nonprimate) for Human Stress
Circadian Rhythms, Effects of Prenatal Stress in Rodents
Fish, Stress in
Immobilization Stress
Pre-pulse inhibition
Primate Hierarchies and Personality
Primate Models, Behavioral-Immunological Interactions
Primate Models, Cardiovascular Disease
Primate Models, Overview
Primates: Rearing and Effects of Stress on Primate CNS Function
Sex-Specific Effects of Early Social Stress in Mammals: a Study in Guinea Pigs

CONFLICT, WAR, TERRORISM
Chemical Warfare
Gulf War Syndrome, Psychological and Chemical Stressors
Hiroshima Bombing, Stress Effects of
Holocaust, Stress Effects of
Impact of Terrorism on the Development of Mental Health Symptoms
Korean Conflict, Stress Effects of
Lockerbie Air Crash, Stress Effects of
Northern Ireland, Post Traumatic Stress Disorder in
Nuclear Warfare, Threat of
Oklahoma City Bombing, Stress Effects of
Persian Gulf War, Stress Effects of Prisoners of War
9/11, Religion and Stress
Suicide Terrorism, Genesis of Terrorism
Torture

Traumatic Stress and Posttraumatic Stress Disorder; the Israeli Experience
Vietnam Veterans, Postwar Experiences and Health Outcomes
War Stress in the Former Yugoslavia
War, Suicide and Sacrifice

DISASTERS
Airline Accidents
Chernobyl, Stress Effects of
Disasters and Mass Violence, Public, Effects of Disaster Syndrome
Earthquakes, Stress Effects of
Floods, Stress Effects of Hurricane Katrina Disaster, Stress Effects of
Motor Vehicle Accidents, Stress Effects of Three Mile Island, Stress Effects of

DIURNAL, SEASONAL AND ULTRADIAN RHYTMS
Circadian rhythm effects on cardiovascular and other stress-related events
Circadian Rhythms, Genetics of Night Shiftwork
Seasonal Changes in Stress Responses
Seasonal Rhythms
Sleep Loss, Jet Lag, and Shift Work
Sleep, Sleep Disorders, and Stress Ultradian Rhythms

DRUGS (EFFECTS)
Alcohol, Alcoholism and Stress:
A Psychobiological Perspective
Drug Use and Abuse
Interactions between Stress and Drugs of Abuse Opioids
DRUGS (TREATMENT)
Antipsychotic Drugs and Stress
Anxiolytics
Benzodiazepines
Beta-Adrenergic Blockers
Pharmacological Treatments of Stress
Selective Serotonin Reuptake Inhibitors (SSRIs)
Stress and Anxiety: treatment with 2nd generation antipsychotic drugs

GENERAL CONCEPTS AND MODELS
Alarm Phase and General Adaptation Syndrome
Allostasis and Allostatic Load
Behavior, Overview
Conservation of Resources Theory
Control and Stress
Demand–Control Model
Effort–Reward Imbalance Model
Environmental Factors
Evolutionary Origins and Functions of the Stress Response
Fight-or-Flight Response
Instinct Theory
Life Events Scale
Psychological Stressors, Overview
Remodelling of neuronal networks by stress
Selye, Hans
Stress, Definitions and Concepts of Stress Effects, Overview
Stress System Balance Hypothesis
Stress, Beneficial Effects of

GENETICS AND GENOMICS
Circadian clock genes as modulators of sensitivity to genotoxic stress
Corticosteroid Receptor Genes: Functional Dissection in Mice
Corticotropin Releasing Factor Receptor Deficiency in Mice
Drosophila Genes and Anoxia
Expression Profiling of Stress Responsive Gene Patterns
Gene Environment Interactions in Early Development
Genetic Factors and Stress
Genetic Polymorphisms in Stress Response
Genetic Predispositions to Stressful Conditions
Genetic Testing and Stress
Genetic variation of HPA axis activity and function in farm animals
Glucocorticoid Receptor Mutant Mice as Models for Stress-Induced Affective Disorders
Glucocorticoid Receptor Mutations and Polymorphisms
Mineralocorticoid Receptor Polymorphisms
Neuroticism Genetic Mapping of Neuroticism Response to Stress, Genetic Mapping of Mice
Serotonin Transporter Genetic Modifications
Strain Differences in Stress Response in Rodents
Stress and CNS Arousal; Genomic Contributions

HUMAN COGNITION, EMOTION AND BEHAVIOR
Adolescence
Aggression
Aggressive Behavior
Aging and Psychological Stress
Anger
Anxiety
Bereavement
Burnout
Carcinogenic Adaptation to
Carcinogenic Recovery from
Caregivers, Stress and
Childbirth and Stress
Cognition and Stress
Combat, Acute Reactions to
Combat Reaction, Chronic
Combat Stress Reaction
Concentration Camp Survivors
Coping Skills
Coping and Stress: a Lens and Filter Model
Cortisol Awakening Response
Death Anxiety
Dental Stress
Depersonalization: Systematic Assessment
Diet and Stress, Non-Psychiatric
Dissociation
Distress
Emergency Personnel, Stress in
Emotional Inhibition
Emotions: Structure and Adaptive Functions
Fatigue and Stress
Fear
Fear and the Amygdala
Firefighters, Stress in
Grieving
Holocaust Survivors, Experiences of
Homosexuality, Stress and
Hostility
Impotence, Stress and
Impulse Control
Industrialized Societies
Learning and Memory, Effects of Stress on Marriage
Medical Profession and Stress  
Memory Impairment  
Menopause and Stress  
Neuroimaging and Emotion  
Nightmares  
Optimism, Pessimism and Stress  
Pain  
Parenting, Stress of  
Peacekeeping  
Police, Stress in  
Prison  
Psychosomatic Medicine  
Recovery from Stress  
Refugees, Stress in  
Religion and Stress  
Self-Esteem, Stress, and Emotion  
Somatic Disorders  
Stress Generation  
Stress in University Students  
Suicide, Psychology of  
Suicide, Sociology of  
Surgery and Stress  
Survivor Guilt  
Teaching and Stress  
Trauma and Memory  
Type A Personality, Type B Personality  
Understimulation/Boredom  

HUMAN HEALTH AND PHYSICAL ILLNESS

Amnesia  
Adrenal Insufficiency  
AIDS  
Alzheimer's Disease  
Arthritis  
Asthma  
Atherosclerosis  
Attention-Deficit/Hyperactivity Disorder, Stress and Breast Cancer  
Cancer  
Cardiovascular Disease, stress and Chaperonopathies  
Chronic Fatigue Syndrome  
Common Cold and Stress  
C-Reactive Protein  
Cytokines, Chronic Stress, and Fatigue  
Cushing's Syndrome, Medical Aspects  
Cushing's Syndrome, Neuropsychiatric Aspects  
Dermatological Conditions  
DHEA  
Diabetes, Type I  
Disease, Stress Induced  
Eclampsia and preeclampsia  
Endometriosis  
Enuresis  
Epilepsy  
Fibromyalgia  
Graves’ Disease (Thyrotoxicosis)  
Health Behavior and Stress  
Heart Disease/Attack  
Heart Failure, Stress Effects  
Hemostasis and Stress  
Hyperreactivity (Cardiovascular)  
Hypertension  
Hyperthermia  
Hyperthyroidism  
Hyperventilation  
Hypoglycemia  
Hypotension, Hypovolemia, and Septic Shock  
Hypothermia  
Hypothyroidism  
Hysteria  
Metastasization  
Migraine  
Multiple Trauma  
Nelson's Syndrome  
Neurodegenerative Disorders  
Organ Transplantation, Stress of  
Parkinson's Disease  
Perinatal Dexamethasone  
Pregnancy, Maternal and Perinatal Stress, Effects of  
Premenstrual Dysphoric Syndrome  
Prolactin and stress  
Psychosomatic heart disease: role of sympathetic and sympathoadrenal processes  
Rheumatic Disorders  
Sickle Cell Disease and Stress  
Space, Health Risks of  
Spinal Cord Injury, Physical Stress of  
Spinal Cord Injury, Psychological Stress of  
Stress Effect of Assisted Reproduction  
Stress Induced Anovulation  
Stress, Insulin Resistance and Type II Diabetes  
Stress, NPY and Cardiovascular Diseases  
Ulceration, Gastric  

HUMAN MENTAL HEALTH AND PSYCHOPATHOLOGY

Acute Stress Disorder and Posttraumatic Stress Disorder  
Adjustment Disorders  
Adolescent suicide  
Affective Disorders  
Antisocial Disorders  
Anxiety  
Arthritis – Psychological  
Borderline Personality Disorder  
Child Abuse  
Child Sexual Abuse
Contents by Subject Area

Comorbid Disorders and Stress
Corticotropin-Releasing Factor Circuitry in the Brain – Relevance for Affective Disorders and Anxiety
Defensive Behaviors
Depression and Coronary Heart Disease
Depression and Manic-Depressive illness
Depression and Stress, Role of n-3 and n-6 Fatty Acids
Depression, Immunological Aspects
Depression Models
Diet and Stress, Psychiatric
Disaster Syndrome
Dissociation
Eating Disorders and Stress
Elder Abuse
Ethnicity, Mental Health
HPA alterations in PTSD
Hypocortisolism and Stress
Incest
Learned Helplessness
Life Events and Health
Loss Trauma
Male Partner Violence
Major Depressive Disorder
Multiple Personality Disorder
Negative Affect
Neurodevelopmental Disorders in Children
Neurosis
Obsessive–Compulsive Disorder
Panic Disorder and Agoraphobia
Paranoia
Posttraumatic Stress Disorder – Clinical
Posttraumatic Stress Disorder, Delayed
Posttraumatic Stress Disorder in Children
Posttraumatic Stress Disorder – neurobiological basis for
Posttraumatic Stress Disorder,
Neurobiology of Psychotic Disorders
Revenge Fantasies
Schizophrenia
Sexual Assault
Sexual Offenders
Social support in trauma
Stress of Self Esteem
Suicide, Biology of
Trans-sexualism
Violence

IMMUNOLOGY, INFECTION AND INFLAMMATION
Antibody Response
Autoimmunity
Corticotropin-releasing factor (CRF) family of neuropeptides – role in inflammation
Cytokines
Cytokines, Stress, and Depression
Cytotoxic Lymphocytes
Herpesviruses
HIV Infection/AIDS
Immune Cell Distribution, Effects of Stress on Immune Function, Stress-Induced Enhancement of Immune Response
Immune Suppression
Immune Surveillance – Cancer, Effects of Stress on Immune System, Aging
Immunity
Infection
Inflammation
Leishmania, Stress Response in Leukocyte Trafficking and Stress
Lymphocytes
Mucosal Secretory Immunity, Stress and Multiple Sclerosis
Natural Killer (NK) Cells
Neuroimmunomodulation
Neuroinflammation
Psoriasis
Psychoneuroimmunology
Sepsis, Acute Respiratory Distress Syndrome and Glucocorticoid Resistance
Systemic Lupus Erythematosus
Vaccination
Viral Virulence and Stress
Viruses and Stress

LABORATORY STUDIES AND TESTS
Antimineralocorticoid Challenge
Dex-CRH Test
Dexamethasone Suppression Test (DST)
Mental Stress Testing
Metyrapone: Basic and Clinical Studies
Trier Social Stress Test
Waist–Hip Ratio

THERAPIES
Aerobics, Exercise and Stress Reduction
Behavior Therapy
Cancer Treatment
Desensitization
Exercise
Family Therapy
Group Therapy
Hypnosis
Inegrative Medicine (Complementary and Alternative Medicine)
Meditation and Stress
Problem-Solving Skills Training
Psychosomatic Medicine
Reenactment Techniques
Relaxation Techniques
Stress Management and Cardiovascular Disease
Stress Management, CAM Approach
Trauma Group Therapy

PHYSIOLOGICAL, PHARMACOLOGICAL AND BIOCHEMICAL ASPECTS

Acute Stress Response: Experimental
Acute Trauma Response
Adenyl Cyclases and Stress Response
Adrenal Cortex
Adrenaline
Adrenal Medulla
Adrenocorticotropic Hormone (ACTH)
Adrenocortical Function, factors controlling development thereof
Aging and Stress, Biology of
Aging and Adrenocortical Factors
Alcohol and Stress: Social and Psychological Aspects
Aldosterone and Mineralocorticoid Receptors
Ambulatory Blood Pressure Monitoring
Amenorrhea
Amygdala
Anatomy of the HPA Axis
Androgen Action
Angiotensin
Angiotensin receptors
Annexin
Anti-CRF
Antidepressant Actions on Glucocorticoid Receptors
Apoptosis
Arterial Baroreflex
Autonomic Nervous System
Autotolerance
Avoidance
Beta-Endorphin
Blood–Brain Barrier, Stress and Blood Pressure
Brain and Brain Regions
Brain Natriuretic Peptide (BNP)
Brain Trauma
Calbindin
Calcium-Dependent Neurotoxicity
Calcium, Role of
Cardiovascular System and Stress
Catecholamines
Central Stress Neurocircuits
Cerebral Metabolism, Brain Imaging
Chaperone Proteins and Chaperonopathies
Cholesterol and Lipoproteins
Comparative Anatomy and Physiology
Congenital Adrenal Hyperplasia (CAH)
Corticosteroid-Binding Globulin (Transcortin)
Corticosteroid Receptors
Corticosteroids and Stress
Corticotropin Releasing Factor (CRF)
Corticotropin Releasing Factor-Binding Protein
Corticotropin Releasing Factor Receptors
Critical Thermal Limits
Dopamine, Central
Drosophila Studies
Electrodermal Activity
Endocrine Systems
Estrogen
Ethanol and Endogenous Opioids
Excitatory Amino Acids
Excitotoxins
Familial Patterns of Stress
Febrile Response
Feedback Systems
Fibrinogen and Clotting Factors
Feeding Circuitry (and Neurochemistry)
Fetal Stress
Food Intake and Stress, Human
Food Intake and Stress, Non-Human
Food Shift Effect
GABA (Gamma Aminobutyric Acid)
Gastrointestinal Effects
Gender and Stress
Ghrelin and Stress Protection
Glia or Neuroglia
Glucocorticoid Negative Feedback
Glucocorticoid Effects on Memory: the Positive and Negative
Glucocorticoids – Adverse Effects on the Nervous System
Glucocorticoids, Effects of Stress on
Glucocorticoids, Overview
Glucocorticoids, Role in Stress
Glucose Transport
Glycobiology of Stress
Gonadotropin Secretion, Effects of Stress on Heart Rate
Heat Resistance
Heat Shock Genes, Human
Heat Shock Proteins: HSP60 Family Genes
Heat Shock Response, Overview
Hippocampal Neurons
Hippocampus, Corticosteroid Effects on
Hippocampus, Overview
Homeostasis
11β-Hydroxysteroid Dehydrogenases
Hypothalamic-Pituitary-Adrenal Axis
Instinct Theory
Kidney Function
Left Ventricular Mass
Leptin, Adiponectin, Resistin, Ghrelin
Lymph Nodes
Macrophage Antimycobacterial Activity, Effects of Stress on
Macrophages
Maternal Deprivation
Membrane Glucocorticoid Receptors
Memory and Stress
Menstrual Cycles and Stress
Metabolic Syndrome
Metals, Oxidative Stress and Brain Biology
Mitochondria
Monoamine Oxidase
Multi Drug Resistance P Glycoprotein and other Transporters
Musculoskeletal Problems and Stress
Myopathy
Neural Stem Cells
Neuroendocrine Systems
Neurogenesis
Neuropeptide Y
Neuropeptides, Stress-Related
Nitric Oxide
Nutrition
Obesity, Stress and
Orexin
Oxidative Stress
Oxidative Stress and Acidosis, Molecular Responses to
Oxidative Stress and Aging
Oxytocin
Paraventricular Nucleus
Peptides
Personality Processes
Pheromones
Pituitary Regulation, Role of
Pressure, Effects of Extreme High and Low
Pro-opiomelanocortin (POMC)
Prostaglandins
Proteases in Prokaryotes and Eukaryotic Cell Organelles
Proteases in the Eukaryotic Cell Cytosol
Protein Synthesis
Proteosome
Reducive Stress
Regional Blood Flow, Stress Effects
Renal and Adrenocortical Effects of Dopamine
Reproduction, Effects of Social Stress on Reproductive Dysfunction in Primates, Behaviorally Induced
Resistance
Restraint Stress
Salivary Cortisol
Salt Appetite
Secretagogues
Serotonin
Serotonin in Stress
Sex Differences in Human Stress Response
Sex Steroids, Response to Stress and Susceptibility to Depression
Sexual Dysfunction
Smoking and Stress
Startle Response
Steroid Hormone Receptors
Steroid Hydroxylases
Stress Hyporesponsive Period
Sympathetic Nervous System
Synthetic Glucocorticoids
Temperature Effects
Thermal Stress
Thermotolerance, Thermoresistance, and Thermosensitivity
Thymus
Thyroid Hormones
Urocortin
Vasoactive Peptides
Vasopressin

PSYCHOLOGICAL THERAPY
Cognitive Behavioral Therapy
Freud, Sigmund
Posttraumatic Therapy
Psychoanalysis
Psychotherapy
War-Related Posttraumatic Stress Disorder, Treatment of

PSYCHOSOCIAL AND SOCIOECONOMIC ASPECTS
Childhood Stress
Child Physical Abuse
Chronic Social Stress: GR Sensitivity in Leukocytes
Community Studies
Crowding Stress
Crime Victims
Crisis Intervention
Cultural Factors in Stress
Cultural Transition
Divorce, Children of Domestic Violence
Economic Factors and Stress
Education Levels and Stress
