

# Visit us at

[www.syngress.com](http://www.syngress.com)

Syngress is committed to publishing high-quality books for IT Professionals and delivering those books in media and formats that fit the demands of our customers. We are also committed to extending the utility of the book you purchase via additional materials available from our Web site.

## **SOLUTIONS WEB SITE**

To register your book, visit [www.syngress.com/solutions](http://www.syngress.com/solutions). Once registered, you can access our [solutions@syngress.com](mailto:solutions@syngress.com) Web pages. There you may find an assortment of value-added features such as free e-books related to the topic of this book, URLs of related Web sites, FAQs from the book, corrections, and any updates from the author(s).

## **ULTIMATE CDs**

Our Ultimate CD product line offers our readers budget-conscious compilations of some of our best-selling backlist titles in Adobe PDF form. These CDs are the perfect way to extend your reference library on key topics pertaining to your area of expertise, including Cisco Engineering, Microsoft Windows System Administration, CyberCrime Investigation, Open Source Security, and Firewall Configuration, to name a few.

## **DOWNLOADABLE E-BOOKS**

For readers who can't wait for hard copy, we offer most of our titles in downloadable Adobe PDF form. These e-books are often available weeks before hard copies, and are priced affordably.

## **SYNGRESS OUTLET**

Our outlet store at [syngress.com](http://syngress.com) features overstocked, out-of-print, or slightly hurt books at significant savings.

## **SITE LICENSING**

Syngress has a well-established program for site licensing our e-books onto servers in corporations, educational institutions, and large organizations. Contact us at [sales@syngress.com](mailto:sales@syngress.com) for more information.

## **CUSTOM PUBLISHING**

Many organizations welcome the ability to combine parts of multiple Syngress books, as well as their own content, into a single volume for their own internal use. Contact us at [sales@syngress.com](mailto:sales@syngress.com) for more information.

# Programming Lego Mindstorms NXT

Owen Bishop

Elsevier, Inc., the author(s), and any person or firm involved in the writing, editing, or production (collectively “Makers”) of this book (“the Work”) do not guarantee or warrant the results to be obtained from the Work.

There is no guarantee of any kind, expressed or implied, regarding the Work or its contents. The Work is sold AS IS and WITHOUT WARRANTY. You may have other legal rights, which vary from state to state.

In no event will Makers be liable to you for damages, including any loss of profits, lost savings, or other incidental or consequential damages arising out from the Work or its contents. Because some states do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.

You should always use reasonable care, including backup and other appropriate precautions, when working with computers, networks, data, and files.

# Author

Owen Bishop is the author of over 80 books, mostly on electronics and computing, including the best-selling *Commodore 64 Games Book*. His most recent publication is the *Robot Builder's Cookbook* (Elsevier/Newnes, 2007).

Owen's talent for introducing the world's of electronics and computing has long been proven fact with his textbooks, professional introductions and hobby guides being chosen by thousands of students, lecturers and enthusiasts. With Owen's clear program descriptions you can get your robot up and running quickly, even if you are a beginner, and have fun whilst doing so.

Educated in England, at Bristol University and the University of Oxford, Owen has lived and worked in several countries as a science education adviser for UNESCO and the British Council. He is at present a freelance technical writer, living in Perth, Western Australia.

# Contents

<b>Chapter 1 Robots and Programs</b> . . . . .	<b>1</b>
Introduction . . . . .	2
What is a Program? . . . . .	4
Designing a Robot. . . . .	6
Specify the Robot's Environment . . . . .	7
Intelligent or Smart? . . . . .	8
Summary . . . . .	9
<b>Chapter 2 About NXT-G Programs</b> . . . . .	<b>11</b>
Introduction . . . . .	12
Creating a Program . . . . .	13
First Steps . . . . .	16
Out of Memory? . . . . .	18
Coming for a Spin? . . . . .	19
Tying it Together . . . . .	19
<b>Chapter 3 Data</b> . . . . .	<b>23</b>
Introduction . . . . .	24
Sources of Data . . . . .	24
Variables. . . . .	26
A Variable Has a Name, a Type, and a Value . . . . .	27
Arithmetic Operators . . . . .	28
Logical Operators. . . . .	28
Flag Variables . . . . .	29
<b>Chapter 4 Loops</b> . . . . .	<b>31</b>
Introduction . . . . .	32
Outside Events. . . . .	33
Time Limit . . . . .	34
Counting the Loops . . . . .	34
Dance Some More. . . . .	34
Use Loops to Make Actions Repeat . . . . .	36
Another Way to Use the Loop Counter. . . . .	36
Logical Conclusions . . . . .	37
Use a Loop (or a Wait Block) to Wait for an Event to Occur . . . . .	38
Nested Loops . . . . .	38
The Wait Block . . . . .	39

<b>Chapter 5 Switches and Other Topics</b> .....	<b>41</b>
The Switch Block .....	42
Switch Blocks Direct Execution Along Alternative Pathways .....	44
Simultaneous Processing .....	44
Diagnostic Programming .....	46
<b>Chapter 6 Using the Light Sensor</b> .....	<b>51</b>
Introduction .....	52
Light Sensor Directed Downward .....	54
Lined in .....	57
Line Follower .....	58
Edge Follower .....	59
Light Sensor Directed Upward .....	60
Housefly .....	61
Light Sensor Directed Forward .....	63
Lightfinder1 .....	63
LightFinder2 .....	64
Almost an Interrupt .....	65
LightFinder3 .....	66
LightFinder4 .....	67
Summary .....	70
<b>Chapter 7 Using the Touch Sensor and the NXT Buttons</b> .....	<b>71</b>
Introduction .....	72
Waiting for Contact .....	73
Bumper .....	74
Waiting for Input .....	75
Scanning the NXT Buttons .....	76
Entering Numbers .....	79
<b>Chapter 8 Using the Ultrasonic Sensor</b> .....	<b>81</b>
Introduction .....	82
Avoidance Routine for Alpha Rex .....	82
Ultrasonic Search .....	84
<b>Chapter 9 Sounds Received and Emitted</b> .....	<b>87</b>
Introduction .....	88
Start and Stop .....	88
Start, Stop, and Turn .....	89
One Clap or Two? .....	90
Playing a Tune (with a Little Dance) .....	92

Choreography . . . . .	93
Song Snippets . . . . .	94
Dance Snippets . . . . .	94
<b>Chapter 10 The Magnetic Compass Sensor . . . . .</b>	<b>95</b>
Introduction . . . . .	96
Heading in the Right Direction . . . . .	97
Polygon . . . . .	98
Circle . . . . .	99
<b>Chapter 11 More Mathematics . . . . .</b>	<b>103</b>
Introduction . . . . .	104
Floating Point Arithmetic . . . . .	104
Calculating Cosines . . . . .	105
Calculating Sines . . . . .	107
Square Root . . . . .	108
Factorials . . . . .	110
Combinations . . . . .	113
X modulo Y . . . . .	114
Modulo Counting . . . . .	116
<b>Chapter 12 Navigation . . . . .</b>	<b>119</b>
Introduction . . . . .	120
Distance Traveled . . . . .	120
Magnetic Compass . . . . .	122
Edge Follower 1 . . . . .	122
No-go Response to a Line . . . . .	125
Steering Alpha Rex . . . . .	127
Marching Orders . . . . .	131
Rex On Line . . . . .	132
Rex On Edge . . . . .	134
Pathfinder . . . . .	137
Cosine Rule . . . . .	142
<b>Chapter 13 Games Robots Play . . . . .</b>	<b>147</b>
Introduction . . . . .	148
Maze Runner—Version 1 . . . . .	148
Maze Runner—Version 2 . . . . .	153
Maze Runner—Version 3 . . . . .	154
Maze Learner . . . . .	157
Scissors, Paper, Stone . . . . .	159

Signalling by Semaphore . . . . .	166
Magic . . . . .	167
The Program . . . . .	170
<b>Chapter 14 Databases for Robots . . . . .</b>	<b>173</b>
Introduction . . . . .	174
Lookup Table for Weekdays . . . . .	174
Writable Lookup Table . . . . .	176
Another Way of Using a Lookup Table . . . . .	177
Reading Data from a File Access Block . . . . .	178
Acknowledgements . . . . .	183
<b>Index . . . . .</b>	<b>185</b>
